1" x 4" per lin foot \$.70

1" x 5" per lin foot \$.87

1" x 6" per lin foot \$1.05

Aggregates

F.O.B. Plant

Plaster Sand per ton \$ 9.00

Sand Gravel 47B \$10.00

Limestone 47B \$15.00

Truck Holding Time

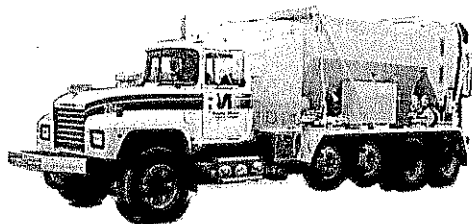

When a truck is held at the job site in excess of 20 minutes, or 5 minutes per cubic yard, whichever is greater we reserve the right to charge \$50.00 per hour in addition to the charge for the concrete.

Wrecker Service Time

We reserve the right to charge \$50.00 per hour, with a 1 hour minimum portal to portal for wrecker service when haul roads are inadequate for trucks to get to and from discharge point under their own power.

Winter Prices

An additional charge of \$3.00 per cubic yard or \$4.00 per cubic meter will be added for concrete delivered between November 15th and March 15th. This charge is due to excessive operating costs during winter months.

Ready Mixed Concrete

6200 Cornhusker Hwy

Lincoln, Nebraska

402-434-1844

Hours of Operation

Regular hours are as follows:

Weekdays - 6:30 am to 5:00 pm

March 16th through November 14th

7:00 am to 5:00 pm

November 15th through March 15th

Saturdays - 8:00 am to Noon

May through October

Weather permitting

When delivery is required other than regular working hours an additional charge will be assessed. Call dispatch for information.

General Conditions

When strength is used as the basis of acceptance of the concrete, standard specimens shall be made and tested in accordance with the latest publication of ASTM C-31 and guaranteed FOB job site at time of shipment when slump ordered does not exceed 4" and the above specifications are followed. Acceptance of the concrete will be based on paragraph 17.5.1 of ASTM C-94, which states the average of only three consecutive strength tests shall be equal to or greater than the specified strength. In addition paragraph 17.5.2 states that no individual strength test shall be more than 500 psi (3.4 Mpa) below the specified strength. F'c.

Ready Mixed Concrete Company assumes no responsibility for the quality of the concrete when an additive is placed in the mix after it leaves the mixing plant, or if water is added to the mix to increase the slump over 4".

Neither slump nor strength can be guaranteed when the order is less than one cubic yard.

When material of any kind is added to the concrete at the job site, it will be so noted on the delivery ticket by the driver before the customer signs for the acceptance of the load.

Purchaser waives all claims for damage to persons or property caused by seller's truck when the driver of said truck is directed by the purchaser to move said truck (across the property line) onto the job site.
